our story

Well, you can skip this slide if you want

The name raised many eyebrows. People were curious to know why this name was chosen.

Whenever this question was put to the founder President Rajiv Sharma he would explain with utmost patience. Slowly Mr. President got used to this question.

Yes, we are 5thDT. We love working on web, spaces, gravity, numbers, screens and phones. simply explained by co-founder CEO Priya Niyogi. As easy as that sounds.

We had our ouch moments many a times because lot many used to have their own version of our company name. 5D, 5thD, 5DT, 5Dimension and what not. Ladies and Gentlemen, we are 5thDT.

5th Dimension Technologies. @Roger that
#brewed from real life experiences.

What We Do

Concepts, UI & UX

Not great minds at work, but the best work by creative minds. We engage with brands and people.

You need a UI for your applications, you want to rework on the UX or need digital transformation of your printed material, we are all here to work with you. We work on strict deadlines that make us “nocturnal”.

#we are workaholics @usually not casual

Web & Mobile Applications

While we try to stick to what we are good at, we also learn and we upgrade too. Let it be Hybrid or Native apps, iOS or Android, our team can build in React and Flutter.

Curious? You can always ask for a call to know more. We promise your time will not be wasted.

#crossing the platforms @we love phones

What We Do

Software Solutions

Yes, we are the solution providers.

5th DT focuses on designing and developing products and solutions for startups, large business and social enterprises on **multiple technology platforms**.

We also offer niche, high end but cost effective skills in developing world class products.

#solution providers @we are technophiles

Managed Services

We offer software services across **Fixed cost, Time & Material and Pavilion(ODC) commercial models**. Dedicated pool of offshore resources with popular skills who are well versed with models like **waterfall, Iterative and Agile**.

Our team has the right **skills** to fit in the emerging market trends. We offer resources skilled with latest technologies **like PHP, Java, python .js, and angular js, react, Mongo, SAP, HTML**

#sourcing in @we are work hungry

Cyber Security

Tackle evolving threats to your business. The data to everything platform.

Data is complex, but your approach to it doesn't have to be. Become more resilient in the face of new threats and volatile market forces. 5th DT in 2021 has partnered with **Splunk** to enter the **Data Age**.

Transform your business in the cloud with **Splunk**.

#be rest assured @we protect your data

2D Animation

Our love for comic, characters, cartoons and fiction made us start the animation division.

5th DT has started the animation division in 2016. We initially took small jobs to learn the process and now we have a strong team in **Animate CC** and **Harmony**. You want to get **characters** designed or bring your own characters to life, our team is skilled to deliver from **pre production** to **post production**.

#from script to screen @we move and jump

E-Learning

Well, learning on the go? Enhance your existing in house training by way of opting for **E- Learning** method.

With a well implemented **Learning Management System (LMS)**, that makes it easy to track and prove progress for your staff and learners. This can be essential where proof of mandatory **training** is required.

#digital learning @ we deliver the best

Education

Learning never ends. Study anywhere, anytime.

5thDT strongly believes that good **education** is the foundation of a bright future. After extensive research, we have developed a well articulated **solution** for learners of all ages.

For we follow the belief, that education is everybody's right.

#education for all @we empower the learning

@Our Customers

@Say Hello

We do not favour canned / automated responses. As we want people to know that they are talking to humans and not machines.
